

GIANFRANCO ELLI

SOFTWARE ENGINEER

ABOUT ME

I'm a Software Engineer.

I love spending time looking 'underneath the hood' to understand the magic behind the scenes.

I like to work in a team, learn from others and share my knowledge.

- Teamwork
- Leadership
- Math

WORKING EXPERIENCE

FULLSTACK DEVELOPER - 2022, PIXIVUS

<https://pixivus.com/>

I worked on a Multi Tenant SaaS application, which provides clients with traceability and storage on the Blockchain.

- New features in frontend, backend and their support in the database.
- Management of DNS records for each client and environment.
- Improvements in the user experience solving bugs, reducing response times, polishing the UI.
- Redesign of emails, PDFs, color palette, typography, internationalization, etc...

FREELANCE SOFTWARE DEVELOPER - 2020

I developed a mobile application that allows you to see how long you have to wait to be attended at a location, reducing contact in times of pandemic.

https://play.google.com/store/apps/details?id=com.mutual_acmo&hl=es&gl=US

- Customer expectation management.
- Completion of the project on time.

FULLSTACK DEVELOPER - 2019, BI-SPORTS

<https://www.bi-sports.com/>

I worked with two University professors in their own company developing web applications, using PHP, HTML, CSS, JS and MySQL.

- Development of new features in both frontend and backend.
- Design of new tables and views in relational databases.

EDUCATION

SOFTWARE ENGINEERING - UNIVERSIDAD ABIERTA INTERAMERICANA

2018 - 2022

ENGLISH - ASOCIACION ROSARINA DE CULTURA INGLESA

2018 - 2021

I took the B2 exam and passed with merit (equivalent to C1 level)

PERSONAL PROJECTS

PORTFOLIO WEB

<https://gianelli.vercel.app/>

LAWFUL WEB

- Lawful allows teams to replace all their collaboration tooling with just one app. Includes videocalls, chats, kanban boards and poker planning capabilities.

<https://lawful-web.vercel.app/>

BINANCE TRADING BOT

- Trading bot (grid trading strategy) connected to Binance API.
- Controlled via HTTP requests or Telegram Messages.

<https://github.com/gianelli99/binance-trading-bot>

AI TICTACTOE

- Play against AI in tic tac toe game.
- It implements the "minimax" algorithm.

<https://tictactoe-js-gian.vercel.app/>

WEATHER APP

- Web weather app that consumes the OpenWeatherMap API.
- Built with HTML, CSS and VanillaJS.
